

## **Stand 14 Prevas AB**

Prevas, a 560 employee listed company, has been delivering unmatched businessvalue to customers through a combination of process excellence, quality frameworks and service delivery innovation, for more than 20 years. By providing niche products and modules together with unparalleled service, Prevas is today acknowledged as the leading company in Scandinavia.

The Test System Design "Center of excellence" within Prevas provides of-the-shelf components and open, modular systems for simulation and test. The deliveries are in a wide range from simple PC software for easy testing to powerful RF and FPGA based solutions.
