

Stand 21 Amska AB/BSW BV

Amerikanska Teleprodukter AB, "Amska" has been active as a manufacturers representative in the RF and microwave field for more than 40 years. Our speciality has been, and still is, to provide high quality test equipment and precision components, such as Automated Tuning Systems, VNA and PNA calibration kits, adapters, amplifiers, attenuators etc. Some of our partners/suppliers are: Maury Microwave Corp (ATS & Cal-Kits), BSW Test Systems (Test Fixtures & ATS Technical Support), Empower RF (Amplifiers) and Weinschel Associates (Attenuators & Terminations).

In addition Amska's cable assembly department offers an extensive selection of Coaxial cables and connectors up to 40GHz with very short lead times.
