

Stand 26 Ferner Elektronik AB

Ferner Elektronik AB is working with leading RF and Microwave companies like Boonton, NoiseCom, dBm, Micronix and Tabor. Boonton: High performance equipment for RF Peak power and power measurements. LadyBug USB power sensors for Peak- and CWmeasurement to 26,5GHz. NoiseCom: Supplier of noise components and noise test equipment. dBm: Noise test equipment for wireless telecommunications and military applications. Micronix: Spectrum analyzer and test equipment for wireless telecommunications including EMI and RFI measurements. GSI making network analyzer, spectrum analyzer. Tabor: High performance RF Arbitrary generators and Modulation Software Packages.
