

Edit or delete a publication in DiVA

If you are a researcher/employee and logged in as **staff** you may edit or delete publications that you have registered yourself or publications where you are the author/editor. Publications with full text or other attachments, doctoral/licentiate theses and student theses may only be edited or deleted by administrators. If you are a DiVA-administrator and logged in as **admin** in DiVA you can handle publications depending on your authorization.

Edit a record in DiVA

What do you want to do? Logged in as Log out Language

Log in to DiVA: <https://hig.diva-portal.org/dream/> Select *Edit / Delete record*.

Search for the record. You can use words from the title or the author's name.

You can also search by using the record's unique URI. Read [below](#) about the URI.

A list of records is presented. You can choose to show *All*, *My records* or *Coauthors*.

The screenshot shows the 'Edit / Delete record' page. At the top right, it says 'Logged in as' and 'Log out'. Below that, there are navigation links for 'Back' and 'Language'. A dropdown menu is open, showing three options: 'All', 'My records', and 'Coauthor'. The 'All' option is currently selected. Below the dropdown, there are search filters: 'Show: All', 'Sort: Date', and 'No. of records: 20'. A list of records is displayed below, with a '1 - 8 of 8' indicator. Three callout boxes provide instructions for each filter option:

- All:** Shows all records that match your search.
- My records:** Shows records that you may edit or delete.
- Coauthor:** Shows records that you may edit or delete after you have confirmed that you are an author or editor.

Confirm that you are an author or editor of a record by “claiming authorship”.

The screenshot shows the 'Claim authorship' form. It has a title bar with a close button. The main content area contains the following text: 'Complete your details and click on Save. If you want to change more details click on Save and change details instead.' Below this is a form with the following fields:

- Author/Editor** (Section header)
- Last name: Eklöv
- First name: Peter
- Username: petek

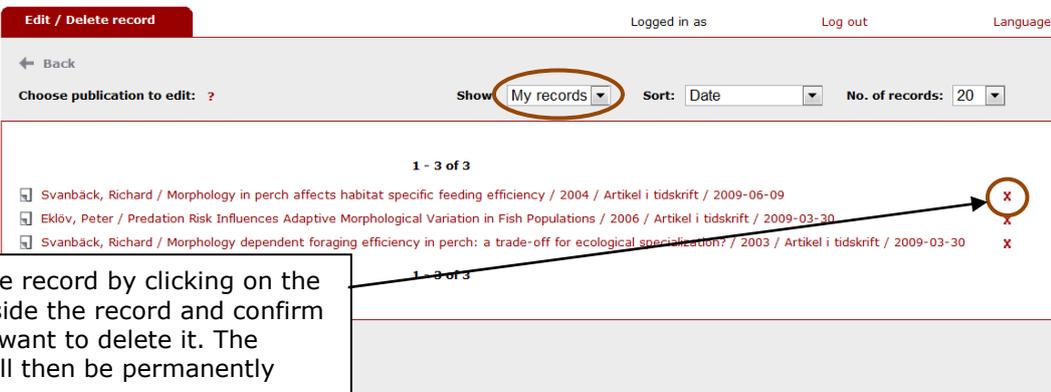

At the bottom of the form, there are three buttons: 'Save', 'Cancel', and 'Save and change details' with a right-pointing arrow. A callout box points to the 'Save' button with the following text:

Add your username to the record and click Save. The record will now appear under *My records*.

Carry out your changes or upload your file, continue to *Review/Publish* and click *Accept*. If you upload a full text or some other attachment retrospectively the record will temporarily disappear from DiVA until it has been checked by a librarian.

Delete a record in DiVA

Select *My records*. If the record you want to delete is not in the list: select *All*, click on the record and confirm that you are an author or editor. Go back to *My records* – the record is now on the list.

1 - 3 of 3

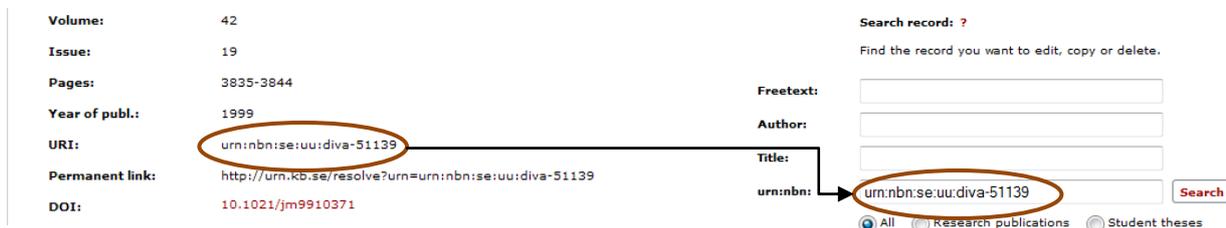

- Svanbäck, Richard / Morphology in perch affects habitat specific feeding efficiency / 2004 / Artikel i tidskrift / 2009-06-09
- Eklöv, Peter / Predation Risk Influences Adaptive Morphological Variation in Fish Populations / 2006 / Artikel i tidskrift / 2009-03-30
- Svanbäck, Richard / Morphology dependent foraging efficiency in perch: a trade-off for ecological specialization? / 2003 / Artikel i tidskrift / 2009-03-30

1 - 3 of 3

Delete the record by clicking on the red **x** beside the record and confirm that you want to delete it. The record will then be permanently removed.

Before you delete a duplicate, check for differences and add any additional information to the record you retain.

Be careful not to delete records by mistake or records that should be kept. To ensure that you delete the right record: use the record's unique URI when searching for the record that is to be deleted. Copy the URI from the DiVA public interface.

Volume: 42

Issue: 19

Pages: 3835-3844

Year of publ.: 1999
