

## COMPANY PROFILE AND INFORMATION

## 1. Description

Spain Internship is a student service organization based in Seville, Spain.

We aim to be a fair organization, offering students affordable and high quality services in their experience abroad and being a perfect partner for LLP / Erasmus mobility programs.

Created in 2009, we are team experienced in hosting international students having closed satisfactorily more than 500 individual cases.

We are proud to be a close partner with well-known educational institutions as Laurea University of Applied Sciences, Finland, and Università degli Studi eCampus and collaborate with more than 100 companies and relevant organizations for internationals in Spain.

## 1.1 Services

### 1.1.1 Global Internship program:

#### In our headquarters city, Seville:

- Internship according to requirements
- Guided touristic tour and introduction to our community
- 24 hours emergency phone
- General assessment (phones, bank accounts, insurances or daily issues)
- Accommodation in students residence or Spain Internship buildings
- Language courses
- Trips
- Handbook with general information
- Airport pick up
- Visa advice

#### Barcelona, Madrid, Tenerife, other cities:

- 24 hours emergency phone
- General assessment (phones, bank accounts, insurances or daily issues)
- Internship according to their requirements
- Accommodation assessment
- Language course discounts
- Trips discounts
- Airport pick up
- Visa advice

## 1.2 Accommodation

In order to provide the best accommodation possibilities to students, Spain Internship can offer different accommodation services in Seville in our own buildings.

We may define 2 different housing categories:

- **High Standard:** Individual mini apartments or high quality rooms with own bathroom and different facilities as fridge, dressing room and similar.
- **Normal Standard:** Double mini apartments, private bathroom or single room shared bathroom in a flat.

### Our Students Residence in Seville

Located in the main floor of a house listed XIX century, in excellent conditions of habitability and located really close to the Cathedral and Bus and metro stations. Its is just 15 minutes walking from the Santa Justa, main train station of the city and 5 minutes from the airport bus stop in Jardines de Murillo.

The house has a solarium, where you can have some sun in the many sunny days of autumn, winter and spring of Seville, admire the Cathedral and the Giralda and other precious domes and steeples as many other ancient churches of Seville.

It has a video surveillance system that covers the facade and the roof of the building to ensure external security and a sensor system to ensure internal security.

Outside our city, we provide a list of suitable websites and agencies to look for apartments or shared flats. We can as well arrange accommodation in other cities but this will be considered as an extra service which extra cost.

## 1.2 Cultural activities and introduction to our community

### Intro week

Every week, we arrange different social meetings and events in order to introduce our students to the community.

In 2011 we have different events:

**Every Wednesday:** meeting in cultural places in the city (flamenco, bowling, sports...)

**Every Thursday:** International parties in BOSS, the most known club in the city.

**Every weekend:** Trips to Portugal, Morocco and Cadiz by We love Spain (collaborators)

## 2.Companies

### 2.1 Introduction

Our organization collaborates with companies in many several fields, having more than one hundred companies in our network.

Even though we have many different profiles, we like to collaborate with medium and small size **innovative** companies.

#### Why?

- Young staff that makes the adaptation of the intern really easy to the position and the work tasks
- English speakers (rarely any person over 40 years old speak English)
- We can secure and control jobs tasks of the intern and they are easy to communicate with. Big multinationals need in some cases 3 interviews and few months to close a position.

Still, we can offer internships in almost any field desired in Spain. We mainly work with our own network but we can always look for new profiles if needed under request.
