

FOR STUDENTS STARTING AT THE
UNIVERSITY OF GEFLE

WELCOME LETTER

Gefle Student union is a great first step into the student life. First of all, we are a very fun group to hang with, but we also function as your support throughout your studies and work a bit like a regular union would - but for students. We work with topics that will increase quality of education, student housing related questions and with student representation in the university's many councils and bodies. You also get access to many discounts, events and activities through us. We have something for everyone!

Gefle Student Union is the only student union at the University of Gefle. In turn we have three committees as well as five union divisions under us. Outside of the unions organisation we also have many other independent student associations, society's and clubs on campus.

At the union it is our Head of Social Affairs that is in charge of events and activities. She leads, and is "klubbmästare", in our committee Klubbmästeriet, who runs Club Kåren. Together with the rest of the "klubbmästerister" she creates amazing club and pub nights, as well as none alcoholic events like gaming weekends. We also have our own café committee that run Café Kåren and make sure that there is always fika.

To gain access to all events, download the hitract app and become a member today!

INFORMATION ABOUT THE INTRODUCTION WEEKS

Between august 16 and 25 we host the Introduction Week at HiG. It is our way of welcoming new students to our student life, and it is Gefle Student Union who is the main host for this event. We run some of the bigger events during the week as well as make sure that everyone is happy and safe. Meanwhile our wonderful student union divisions and independent student associations take care of you during the week and also hosts several events themselves. You will get more information from your division/independent association.

If you cannot join that early, or just want to keep the fun going, our international committee will host their Welcoming Weeks specifically for international students. They'll show you the city, swedish culture and much more!

More information about both the first and second introduction week will be sent out in august 2023.
